

# ALEXANDRE WAYMEL

## IT SPECIALIST

An IT specialist with a passion for Cyber Security, networking, and a proven ability to work well under pressure. A graduate from Swinburne TAFE (Certificate IV in Information Technology) and currently studying for my CompTIA Security + and CCNA, I am seeking to apply my skills and knowledge in an industry context. Highly motivated and a self-starter, I am eager to continue to develop my knowledge and improve the practical application of my skills in cyber security and networking.

### KEY SKILLS

#### CYBER SECURITY

Ability to assess the security of an enterprise environment and implement appropriate security solutions. Ability to identify, analyze and respond to security events and incidents. Understanding of governance, risk, and compliance.

#### ETHICAL HACKING

Up to date with the latest attack paths and exploit techniques and virtual penetration through training on Hack The Box, Try to Hack me.

#### NETWORKING

A strong understanding of networking fundamentals, IP services, security fundamentals, automation, and programmability.

#### LINUX

Able to perform key systems and network administration functions including viewing system information, modifying network configurations, stop/start services and processes, modifying key system and service configuration files, identify location of log files, install software on the Linux distribution, distro for Linux and connect to remote systems.

#### PROGRAMMING

Practical skills in design and code programs using popular languages such as Python, C# and JavaScript, ability to design, build and implement database systems.

#### PROJECT MANAGEMENT

Reporting writing, meeting minutes, presentation, requirements gathering, slack, MS Teams

### SOFTWARE

- Microsoft Suite: Excel, Access, Word, Powerpoint, Project
- Networking: TrueNas, NextCloud, WireShark, GNS3, Packet tracer
- Virtual Machines: VMware, virtual box,
- Coding: Visual Studio Code, Enterprise Architect, draw.io, postman
- Security: Putty, puttygen, filezilla, Tor, BRUP suite, vnc viewer, RDP

## IT SPECIALIST

### PROJECT AND HOBBIES

- Good knowledge of computer hardware and troubleshooting including setting up personal DNS Server with Raspberry Pi (Pi Hole) and local server with TrueNAS
- Enjoy exploring Hak5 hardware including WIFI Pineapple, Bash Bunny, LAN Turtle, Shark Jack, Key Croc, Screen Crab, Packet Squirrel
- Good understanding of Virtual Machines including working with VMware Workstation Pro, cloning a snapshot VM, installing and importing OVF & OVA files
- Managing virtual networks

### SKILLS

- Proven ability to work under pressure
- Problem Solving
- Time Management
- Teamwork
- Adaptability
- Project Management

### ADDITIONAL INFORMATION

Previous career: 13 years working as a professional chef (France and Australia)

Interests: Gaming
